"Growers for the Trade Exclusively"

A Select List of

NEW and SCARCE ROSES

All Field grown, 2-year budded on Multiflora

We try out most of the newest novelties and only offer such as we think worthy of further trial. We have tried to give our opinion of each rose as it appealed to us.

	Each
Angele Pernet , vivid coppery orange, too single, and growth leaves much to be desired.....	.50
Aspirant Marcel Rouyer , deep apricot yellow, vigorous and free flowering, rather good.....	.50
Bedford Crimson , very full, free flowering crimson, growth is moderate and spreading. Desirable.75
Cuba , very brilliant orange scarlet, wonderful color but too single and too fleeting.....	.50
Dame Edith Helen , large, very double, perfectly formed, soft pink and very fragrant. Growth vigorous and we think it will make a good addition to the list of standard sorts. \$6 per 10; \$50 per 100.....	.75
Doris Dickson , orange-carmine, fairly vigorous and an attractive flower.....	.75
Etoile de Hollande , brilliant crimson red, fine in every respect. \$6.50 per 10; \$60 per 100.....	.75
Etoile de Feu , full double salmon flame, vigorous and free flowering; beautiful glossy foliage which seems quite resistant to disease50
Henry Ford , a lemon yellow Independence Day . Good.50
Irish Hope , rich crimson, maroon shadings, attractive50
John Russel , an improved H. V. Machin . Not very free-blooming but bears striking full double flowers of a rich deep crimson.....	.60

Each

Lady Margaret Stewart , deep yellow, veined and splashed with orange and scarlet. Highly recommended but so far we are not especially impressed75
Mrs. A. R. Barraclough , soft carmine pink, very large beautifully formed flowers. The bushes are vigorous and free flowering. Worthwhile.	.60
Julien Potin , the golden Pernet ; better formed flowers, more freely produced. Good.....	.65
Marion Cran , The exquisite shadings and tints of this rose are impossible to describe. Flowers are medium in size, a rich yellow shaded and tinted with red and cerise. A worthy novelty.....	.65
Margaret McGredy , very vigorous and free-flowering; deep coral red. Seems good.....	.60
Mrs. Erskine Pembroke-Thom , a fine free-flowering, rich yellow. Vigorous in growth and beautiful healthy foliage. \$5 per 10.....	.60
Mrs. Henry Bowles , deep salmon-pink, well-formed flowers. Highly recommended but we are not very much impressed.....	.50
Mrs. John C. Mensing , a lovely shade of soft pink, otherwise in habit and growth like Ophelia . \$4.50 per 10.....	.50
Mrs. Lowell Swisher , a vigorous, free-blooming salmon pink. Flowers are full double and quite attractive. \$4 per 10.....	.45
Mrs. R. B. Maloney , large loose flowers of a rich pinkish carmine.....	.50
Mrs. W. E. Nickerson , very vigorous and free-flowering. Well formed flowers of an orange-yellow, shading to a rosy salmon. Would really be classed with the pinks but it is good.	.50
Norman Lambert , well formed buds of a deep yellow with pencilings and shadings of a deeper color. Very attractive. \$5 per 10.....	.60
Patience , a long high-pointed bud of deep carmine, opening to an immense semi-double flower of a rich rosy carmine.....	1.00

Each

- Pink Pearl**, a splendid, vigorous, free-flowering and very fragrant rose somewhat similar to **Columbia**, only it produces more perfect flowers than that variety. \$4 per 10; \$35 per 10050
- Rev. Page-Roberts**, a very popular deep golden yellow with rich shadings. Could be a little more hardy. \$6.50 per 10; \$60 per 100..... .75
- Sir David Davis**, a vigorous very free-flowering crimson. The flowers are well formed, medium in size and are very freely produced. We recommend it. \$4.50 per 10, \$40 per 100... .55

NEW BABY RAMBLERS

- Orange Perfection**, brilliant orange scarlet, a striking color. It does well in the garden giving a wealth of bloom and we understand it is also satisfactory for forcing. It has a tendency to revert. \$4.50 per 10; \$40 per 100 .55
- Golden Salmon**, pure orange scarlet, very similar to Orange Perfection and almost indistinguishable outdoors but we believe it does not revert quite so readily and has slightly the better color. \$5 per 10; \$45 per 100..... .60

5 go at 10 rate, for less than 5 of a variety add 10 cents to the 10 price of each bush. 25 of a variety go at the 100 rate, less than 25 @ 10 rate. Assortments of 10 of an item should be figured at the 10 rate.

Terms of Sale

Cash or references from unknown parties.

Packing free when cash accompanies the order, otherwise, at cost.

All shipments made at purchaser's risk. All orders taken subject to crop failure or conditions beyond our control.

Complaints, if any, must be made promptly on receipt of shipment.

QUALITY means your satisfaction and that of your customers.—We give you that quality.
